## **WERC Checklist in Warehouse Selection**

A checklist for use when building a new facility or acquire an existing structure.

## CHECK IT OUT

## **Checklist to Find Your Next Warehouse**

Editor's note: most of this checklist is designed to use whether you plan to build a new facility or acquire an existing structure. The final section contains items used only for new construction. KBA

ou	verilliental Resolutions		If there is no rail siding now, what is the cost of	
	Is the property zoned for warehousing and related uses?		adding one?  What is the cartage cost to a TOFC (piggyback)	
	Is the zoning description likely to impede conversion of the building to other uses?		terminal?
